September 29, 2023

Dear Property Owner,

**Re: Township of Spallumcheen Water Metering Program Update**

The Township will be hosting an information meeting for residents of the Larkin and Eagle Rock Local Area Services on **Wednesday October 4, 2023** from 4:30 – 6:00 pm. This will be an opportunity to come and find out more about the meter program and ask any questions of staff and Council that you may have.

As noted in the letter sent to you in the past few weeks, the Township will also be hosting a community wide Water Open House, however due to a scheduling conflict the date of that open house has changed. The Open House will be on **Tuesday, October 17<sup>th</sup>, 2023** between 4:00 – 6:00 pm and will provide information on many of the water upgrade projects underway. Representatives from the Township and KTI will be on hand to answer any questions you may have.

Residents will also start seeing our contractor KTI Limited in the area to complete the meter installations in October. KTI will be sending out information in the next two weeks about what to expect with the meter installation and how they will identify themselves to Spallumcheen residents. Information will also be provided on the Township website.

When the installation program commences, if you have a meter located inside your home or business, you will also be receiving information about scheduling an appointment with the meter installers. If you have a meter located outside your home or business, the installer will not need to access your home, but you may have a very brief water interruption while they complete the installation.

Please contact the Township if you have any questions about the water meter installation process. We look forward to completion of this important project. Thank you for your support throughout this process.

Respectfully,

Tyler McNeill  
Manager of Operations
