Map of Evacuation Alert Area

What you should do if you are located in the Evacuation Alert area.

An Evacuation Alert has been issued to prepare you to evacuate your premises or property should it be found necessary. Residents will be given as much advance notice as possible before evacuation; however, you may receive limited notice due to changing conditions.

- *Review BC Wildfire Service website/app for information about fire suppression efforts.*
- *Locate all family members and designate a meeting area outside the evacuation alert area, should an evacuation order be made while family members are separated.*
- *Pack essential items such as government-issued ID, medications, important documents (e.g., insurance, and mortgage / tenancy information), and immediate care needs for dependents.*
